presents

"Protecting New Mexico: Elevating Community Rights Above Corporate Rights"

**Does Your Community Have the Right to Protect the Future of Your Town, City, or County
from WATER DEPLETION & POLLUTION, GMO SEED CONTAMINATION..... by
Corporate Development Sanctioned by the State?**

If you do not know, come find out how you can!

“The [community rights] ordinances turn the myth of popular sovereignty into reality. With the fracking boom in full swing, and our communities becoming resource colonies for a gaggle of corporations [large water withdrawal, GMO, factory farm contamination et al], if the time isn't now, then when will it come? If our communities are not the ones to lead the way, then who will? How long will we continue to allow corporate directors, abetted by traitorous legislators, to govern our communities?”
